MOMENTS TO REMEMBER

Just a mention of the recipe features in this issue of *Taste of Home* brings to mind wonderfully vivid summertime food memories. Here's a few:

>> "Camp Cuisine," p. 60: countless Girl Scout outings (yep, I was in for the duration, all the way to Senior Scout), complete with campfire sing-alongs and ooey-gooey s'mores.

>> "Juicy Fruits," p. 70: picking ripe plums, peaches and nectarines from the trees in our backyard, and eating them on the spot, risking juice stains on our clothes.

>> "Can-tastic," p. 64: spreading toast with some of my mother's sweet, drippy jam, made from fresh-picked strawberries and apricots. Or my GaGa's famous Nine-Day Pickles, so named because that's how long they took to turn from crisp cucumber slices to sweet 'n' spicy bites of heaven.

>> "The Big Chill," p. 18: eating cones filled with the best vanilla ice cream I'd ever tasted, made by our neighbor in an old-fashioned wooden ice cream maker. We kids pooped out after turning the old crank just once.

>> "A Flavorful Fourth," p. 20: our vacation to Indian Lake in Ohio for a Cassidy family reunion and great picnic-table suppers all week long at my grandparents' shoreline cottage. We fished, swam and sang Carpenters' songs and 1970s-era TV commercial jingles at the top of our lungs and drove our parents nuts.

Anyway, you get the idea. This issue is a veritable parade of classic summer foods, the kind good times are made of, and you'll no doubt be skipping down your own personal memory lane as you page through. Grilled favorites, Southwest specialties, main-dish and side salads galore, awesome desserts and, of course, the dozen delicious winners of our chicken contest. Basically, all you need to create the best summer meals and memories ever.

* * * * *

One of my fondest summer memories, though, was when my good friend Ardyth Cope joined us 5 years ago as Creative Director of *Taste of Home*. With her amazing talent and through her unassuming leadership, Ardyth infused our books and magazines with excitement and freshness, and she touched all here with her quiet and caring manner, her often irreverent sense of humor and her desire always to "get it right." Despite a truly courageous fight, she lost her long battle with cancer in March, but her vision lives on in every photo we shoot and every page we create.

Ardyth especially loved summer and all the foods that go with it: hot dogs, watermelon, ice cream, cantaloupe. But fresh corn on the cob was her favorite. So it seems especially fitting to dedicate our summer issue—complete with a terrific sweet corn recipe—to her memory.

Ardyth, this one's for you. Thanks for the beautiful memories.

IN THE SPOTLIGHT

Taste of Home's enthusiastic team of volunteer editors from across the U.S. and Canada share recipes, cooking tips and more with our staff and on-line community

Shelby Bratt
FINDLAY, OH

You love to entertain, so what makes a successful party?

I am a hostess at heart. When I host a dinner or party, my goal is to have a huge variety of food that people will talk about months later. If I plan to serve cheese, bread, vegetables, etc., I set out several kinds of each so everyone has at least one thing they can enjoy. I'll know all their favorites by looking at the empty dishes and can stock up on those foods for the next party.

Shelby and her husband, Brian, are teachers. They enjoy going to Toledo Mudhens baseball games and participating in church activities.

Peggie Brott
FORT DRUM, NY

Do your children enjoy helping in the kitchen?

Yes. About once a month, I let them go through cookbooks and plan a meal. It teaches them cooperation and how to compromise. They do most of the work and feel so proud when they sit down and eat their creations. My youngest is my constant companion in the kitchen; we work on counting, measuring, sorting and reading. He's just having fun and doesn't realize how much he's learning.

Peggie is a stay-at-home mom. Husband Andrew is in the U.S. Army. They have three children, Louisa, 12; Andrew Jr., 8; and Hunter, 4.

Tonya Jones
BRENHAM, TX

What's your specialty?

I bake all kinds of cookies, including a giant cookie cake for birthdays. I've been making my kids' birthday cakes for more than 25 years. I did a pirate cake for my nephew, using brown sugar for sand and little Lego pirates, and a Hawaiian cake with lots of flowers for my niece. I usually get a picture from a coloring book or the Web to work from.

Tonya is a stay-at-home mom who home-schools her youngest daughter, Jaymee. She and her husband, Wayne, an offshore supervisor for ExxonMobil, also have two grown children and two grandchildren.

Leann Meeds
KLAMATH FALLS, OR

Your family likes to camp. What do you usually cook?

I enjoy pouch cooking, where the ingredients are placed in foil, sealed and cooked in the fire. The formula is simple: one protein (fish, chicken), one starch (ramen noodles, rice), vegetables (carrots, mushrooms, onions), seasoning (salt, pepper) and a little liquid (soy sauce, white wine). Mix and match. Place in hot coals, for about 15-20 minutes.

Leann is a high school librarian, and a 4-H food and nutrition leader and judge. She and husband Jim, a service manager, have three children, Andy, 23; Katie, 20; and Jeffrey 13.

Julie Sterchi
JACKSON, MO

Have you been recognized in public as a field editor?

When we lived in Harrisburg, IL, there was a neighborhood market near our house. The first time I paid for my purchases with a check, the cashier did a double take when she saw my name. "Hey, we've got a celebrity here!" she announced to the entire store. "I saw in *Taste of Home* that a field editor had moved to town, and here she is—and she lives just down the block!"

Julie is a paralegal. Husband Edd is a minister. The couple has three children, Bethany, 22; Brittany, 19; and Ben, 17. Church activities keep Julie and Edd busy.

DEAR JANE...

Have you ever had difficulty peeling eggs? I certainly have! I've followed "advice" from friends, and that didn't seem to work, so I finally decided to look in my *Taste of Home Cookbook* and follow the method it suggested. To my surprise, I discovered there are actual steps you should follow to make the process work. From the six eggs I peeled, five were beautiful and one was nearly perfect.

So if you're frustrated with the look of your hard-cooked eggs, check out this foolproof technique at **tasteofhome.com/peel**. Your blood pressure will thank you for it! I will now be the first to volunteer to make deviled eggs for summer parties!

KING CAKE A TRIUMPH

Reader Connie Richardson loved the Traditional New Orleans King Cake in our February/March issue. "It was to die for," she wrote. Connie runs a small restaurant that serves a Fat Sunday Cajun Buffet every year. The buffet always includes a King Cake, and she found this recipe easy and delicious.

I'd love to hear from you, too. Drop me a line at **DearJane@tasteofhome.com**

WITH APPRECIATION

We want to thank you for the wonderful article you had in the April/May issue with our son Justin's recipe (p. 43). What a pleasant surprise to see such a big article and photo. We had friends and family just waiting for it to hit the stores. We're sure Justin will be even more motivated to continue creating recipes and cooking—and that is always a good thing.

HAD TO RENEW

With so many cooking shows on television, computer access to your recipes and thousands of cookbooks available, I had decided to drop my subscription to *Taste of Home* magazine. I was a charter member and have kept up my subscription all these years. But after a month relapse, I just had to send in my payment for another year. I was not a fan of advertising in the magazines but understood the reasoning behind that decision.

My February/March edition came, and it was outstanding. The ground beef section, soups and Fat Tuesday recipes were excellent. I think I found something on about every page. Even the advertisers had some great recipes.

I am so glad I joined up again. I just cannot do without my *Taste of Home* fix. Thank you for an excellent magazine.

—Ramona Allen // SEDALIA, MO

KEEPS ON COOKIN'

Although my children are all grown, I still love to cook. On Tuesdays and Fridays, I conduct a cooking marathon in my small kitchen. I experiment with the recipes in the latest *Taste of Home* magazine and my *Taste of Home* cookbooks. And on Sundays, I cook up the "most special" of the latest recipes.

I love reading the magazines from cover to cover and searching for the Hide & Seek item. I also thoroughly enjoy the brochures and catalogs I receive several times a year.

Thanks for such wonderful magazines and cookbooks. My family loves them, too.

LOVE LETTER!

Each issue, one lucky reader will receive a TOH apron for sending in our favorite "love" letter of the month. Allison, your apron is on its way!

COOKING A MEAL BECAME A "HIT"

My sister, Abigail (age 14), and I (age 17) love to bake and cook, so we were ecstatic when Mom subscribed to *Taste of Home*. We now had a reason to try new dishes instead of our old standbys.

Last fall, Abigail suggested that she and I take turns making a meal once a week. We named these weekly cooking sessions "Homemakers in Training"—or HIT night—since it would prepare us to cook for our families one day. Abigail prepared our first HIT dish, Chicken with Rosemary Butter Sauce from August/September '09. Since then, we have tried a number of other *Taste of Home* recipes.

Thanks to everyone at *Taste of Home* for publishing this wonderful magazine. It's a HIT at our house!

GRANDMA'S LITTLE BAKERS

Cousins Chloe Finlayson, 2, and Michael Finlayson, 2-1/2 (shown above), enjoyed baking the Kids' Favorite Blueberry Muffins from the April/May issue. Chloe was so excited, she started to put the batter into the muffin cups without the blueberries. Michael got to crack the eggs, and they both enjoyed the results.

SOUND BITE

"I think pickles are cucumbers that sold out. They sold their soul to the devil, and the devil is dill."

—MITCH HEDBERG // COMEDIAN

OUCH!

REALLY A-PEELING

After coming home one day, I fussed at my husband (who doesn't have a domestic bone in his body) for leaving peelings in the sink after fixing carrots for a snack. While cleaning up the sink, I noticed my electric hand mixer on the counter. "Why is the beater here?" I asked my husband. "Isn't that one of those vegetable peelers?" he said. He had cleaned his carrots with the beater thinking he'd mastered the use of a kitchen utensil.

IN A PICKLE

Don't you love the crisp, crunchy flavor of pickles, served on the side or on a sandwich, chopped up in a salad—or maybe some other tasty way? Several TOH staffers enjoy pickles in some unconventional ways. And no, none of them were having crazy pregnancy cravings when they shared these signature dishes.

South Berwick Strawberry Festival
SOUTH BERWICK, ME

BERRY HEAVEN

» In 2009, the fest went green, using biodegradable bowls, plates and spoons.

» On the Friday before the fest, hundreds of volunteers gather to hull, slice and sugar the berries.

» The fest serves up, on average, 4,000 pounds of strawberries.

» The whole town gets into the strawberry mood, which is evident from the strawberry flags lining Main Street and adorning many homes and businesses.

A BOUNTY OF BERRIES

If you love strawberries, there's no better place to be the last Saturday of June than the South Berwick Strawberry Festival in South Berwick, ME. TOH Field Editor Pam Brooks, who lives in South Berwick, says the festival has been a must-see since it began in 1975.

Aside from the thousands of pounds of strawberries consumed (mostly as part of the festival's signature strawberry shortcake), there are many fund-raisers during the fest that benefit the community. Since the beginning, more than $175,000 has been given back to nonprofit community groups and used for scholarships. That's a lot of strawberries!

For moderate to severe RA

I HAVE RHEUMATOID ARTHRITIS.

Your results may vary. In medical studies, ENBREL was shown to be effective in about 2 out of 3 adults with moderate to severe rheumatoid arthritis (RA) who used it, and has been shown to begin working in as few as 2 weeks, with most patients receiving benefit within 3 months. In an RA medical study, 55% of patients had no progression of joint damage.

Please see Important Safety Information below and Medication Guide on the back of the following page.

ENBREL is indicated for reducing signs and symptoms, keeping joint damage from getting worse, and improving physical function in patients with moderate to severe rheumatoid arthritis. ENBREL can be taken with methotrexate or used alone.

IMPORTANT SAFETY INFORMATION

What is the most important information I should know about ENBREL?

ENBREL is a medicine that affects your immune system. ENBREL can lower the ability of your immune system to fight infections. Serious infections have happened in patients taking ENBREL. These infections include tuberculosis (TB) and infections caused by viruses, fungi, or bacteria that have spread throughout the body. Some patients have died from these infections. Your doctor should test you for TB before you take ENBREL and monitor you closely for TB before, during, and after ENBREL treatment, even if you have tested negative for TB.

There have been some cases of unusual cancers reported in children and teenage patients who started using TNF blockers before 18 years of age. Also, for children, teenagers, and adults taking TNF blockers, including ENBREL, the chances of getting lymphoma or other cancers may increase. Patients with RA and psoriasis may be more likely to get lymphoma.

Before starting ENBREL, tell your doctor if you:

- Have any existing medical conditions
- Are taking any medicines, including herbals
- Think you have, are being treated for, have signs of, or are prone to infection. You should not start taking ENBREL if you have any kind of infection, unless your doctor says it is okay
- Have any open cuts or sores
- Have diabetes or an immune system problem
- Have TB or have been in close contact with someone who has had TB
- Were born in, lived in, or traveled to countries where there is more risk for getting TB. Ask your doctor if you are not sure
- Live or have lived in certain parts of the country (such as, the Ohio and Mississippi River valleys, or the Southwest) where there is a greater risk for certain kinds of fungal infections, such as histoplasmosis. These infections may develop or become more severe if you take ENBREL. If you don't know if histoplasmosis or other fungal infections are common in the areas where you live or have lived, ask your doctor
- Have or have had hepatitis B
- Have heart failure

I ALSO HAVE A LIFE.

If you suffer from moderate to severe RA, it can seem as though your life has been split in two. ENBREL can help bridge the gap.

ENBREL can reduce the pain, stiffness, and fatigue that's stopping you. It can also help keep joint damage from getting worse. ENBREL is given by injection. ENBREL was the first medicine of its kind approved for moderate to severe RA and is the number-one most prescribed biologic by rheumatologists for RA.* So you can experience another side of RA, and get closer to the life you want to live.

Ask your rheumatologist about ENBREL today. To learn about RA, ENBREL, and patient support call: 1-888-4ENBREL and visit www.enbrel.com.

*Based on monthly prescription data from IMS NPA for September 2009 and a 6-month interval of NDTI data for projected drug uses as of August 2009 for biologic agents approved for moderate to severe RA.

- Develop symptoms such as persistent fever, bruising, bleeding, or paleness while taking ENBREL
- Use the medicine Kineret® (anakinra), Orencia® (abatacept), or Cytoxan® (cyclophosphamide)
- Have or develop a serious nervous disorder, seizures, any numbness or tingling, or a disease that affects your nervous system such as multiple sclerosis
- Are scheduled to have surgery
- Have recently received or are scheduled for any vaccines. All vaccines should be brought up-to-date before starting ENBREL. Patients taking ENBREL should not receive live vaccines.
- Are allergic to rubber or latex
- Are pregnant, planning to become pregnant, or breastfeeding
- Have been around someone with chicken pox

What are the possible side effects of ENBREL?

ENBREL can cause serious side effects including: **Infections,** including serious infections like TB; **hepatitis B** can become active if you already have had it; **nervous system problems,** such as multiple sclerosis, seizures, or inflammation of the nerves of the eyes; **blood problems** (some fatal); new or worsening heart failure; new or worsening **psoriasis**; **allergic reactions**; **autoimmune reactions,** including a lupus-like syndrome and autoimmune hepatitis.

Common side effects include: Injection site reactions, upper respiratory infections (sinus infections), and headache.

These are not all the side effects with ENBREL. Tell your doctor about any side effect that bothers you or does not go away.

Medication Guide ENBREL® (en-brel) (etanercept)

Read the Medication Guide that comes with ENBREL® before you start using it and each time you get a refill. There may be new information. This Medication Guide does not take the place of talking with your doctor about your medical condition or treatment. It is important to remain under your doctor's care while using ENBREL®.

ENBREL® is a prescription medicine called a Tumor Necrosis Factor (TNF) blocker that affects your immune system.

What is the most important information I should know about ENBREL®?

ENBREL may cause serious side effects, including:

1. Risk of infection

ENBREL® can lower the ability of your immune system to fight infections. Some people have serious infections while taking ENBREL®. These infections include tuberculosis (TB), and infections caused by viruses, fungi or bacteria that spread throughout their body. Some people have died from these infections.

- Your doctor should test you for TB before starting ENBREL®.
- Your doctor should monitor you closely for symptoms of TB during treatment with ENBREL® even if you tested negative for TB.
- Your doctor should check you for symptoms of any type of infection before, during, and after your treatment with ENBREL®.

You should not start taking ENBREL® if you have any kind of infection unless your doctor says it is okay.

2. Risk of cancer

- There have been cases of unusual cancers in children and teenage patients who started using TNF-blocking agents at less than 18 years of age.
- For children, teenagers, and adults taking TNF-blocker medicines, including ENBREL, the chances of getting lymphoma or other cancers may increase.
- People with rheumatoid arthritis or psoriasis, especially those with very active disease, may be more likely to get lymphoma.

Before starting ENBREL®, be sure to talk to your doctor:

ENBREL® may not be right for you. Before starting ENBREL®, tell your doctor about all of your medical conditions, including:

- have any open cuts on your body
- get a lot of infections or have infections that keep coming back
- have diabetes, HIV, or a weak immune system. People with these conditions have a higher chance for infections.
- have TB, or have been in close contact with someone with TB
- were born in, lived in, or traveled to countries where there is a risk for getting TB. Ask your doctor if you are not sure.
- live, have lived in, or traveled to certain parts of the country (such as the Ohio and Mississippi River valleys, or the Southwest) where there is a greater risk for getting certain kinds of fungal infections (histoplasmosis, coccidioidomycosis, blastomycosis). These infections may happen or become more severe if you use ENBREL®. Ask your doctor if you do not know if you live or have lived in an area where these infections are common.
- have or have had hepatitis B

  - ✓ **Cyclophosphamide (Cytoxan®).** You may have a higher chance for getting certain cancers when taking ENBREL® with cyclophosphamide.

Keep a list of all your medications with you to show your doctor and pharmacist each time you get a new medicine. Ask your doctor if you are not sure if your medicine is one listed above.

See the section "What are the possible side effects of ENBREL®?" below for more information.

What is ENBREL®?

ENBREL® is a prescription medicine called a Tumor Necrosis Factor (TNF) blocker.

ENBREL® is used to treat:

- **moderately to severely active rheumatoid arthritis (RA).** ENBREL® can be used alone or with a medicine called methotrexate.
- **psoriatic arthritis.** ENBREL® can be used alone or with methotrexate.
- **ankylosing spondylitis (AS)**
- **chronic, moderate to severe plaque psoriasis in adults ages 18 years and older**
- **moderately to severely active polyarticular juvenile idiopathic arthritis (JIA) in children ages 2 years and older.**

You may continue to use other medicines that help treat your condition while taking ENBREL®, such as non-steroidal anti-inflammatory drugs (NSAIDs) and prescription steroids, as recommended by your doctor.

ENBREL® can help reduce joint damage, and the signs and symptoms of the above mentioned diseases. People with these diseases have too much of a protein called tumor necrosis factor (TNF), which is made by your immune system. ENBREL® can reduce the effect of TNF in the body and block the damage that too much TNF can cause, but it can also lower the ability of your immune system to fight infections. See **"What is the most important information I should know about ENBREL®?" and "What are the possible side effects of ENBREL®?"**

Who should not use ENBREL®?

Do not use ENBREL® if you:

- have an infection that has spread through your body (sepsis)
- have ever had an allergic reaction to ENBREL®. See the end of this Medication Guide for a complete list of ingredients in ENBREL®.

How should I use ENBREL®?

- ENBREL® is given as an injection under the skin (subcutaneous or SC).
- If your doctor decides that you or a caregiver can give the injections of ENBREL® at home, you or your caregiver should receive training on the right way to prepare and inject ENBREL®. Do not try to inject ENBREL® until you have been shown the right way by your doctor or nurse.
- ENBREL® is available in the forms listed below. Your doctor will prescribe the type that is best for you.
  - Single-use Prefilled Syringe
  - Single-use Prefilled SureClick Autoinjector
  - Multiple-use Vial
- See the detailed "Patient Instructions for Use" with this Medication Guide for instructions about the right way to prepare and give your ENBREL® injections at home.
- Your doctor will tell you how often you should use ENBREL®. Do not miss any doses of ENBREL®. If you forget to use ENBREL®, inject your dose as soon as you remember. Then, take your next dose at your regular(ly) scheduled time. In case you are not sure when to inject ENBREL®, call your doctor or pharmacist. **Do not use ENBREL® more often than as directed by your doctor.**
- Your child's dose of ENBREL® depends on his or her weight. Your child's doctor will tell you which form of ENBREL® to use and how much to give your child.

- **Hepatitis B infection** in people who carry the virus in their blood. If you are a carrier of the hepatitis B virus (a virus that affects the liver), the virus can become active while you use ENBREL®. Your doctor may do a blood test before you start treatment with ENBREL® and while you use ENBREL®.
- **Nervous system problems.** Rarely, people who use TNF blocker medicines have developed nervous system problems such as multiple sclerosis, seizures, or inflammation of the nerves of the eyes. If you have heart failure your condition should be watched closely while you take ENBREL®. Call your doctor right away if you get new or worsening symptoms of heart failure while taking ENBREL® such as shortness of breath or swelling of your lower legs or feet.
- **Psoriasis.** Some people using ENBREL® developed new psoriasis or worsening of psoriasis they already had. Tell your doctor if you develop red scaly patches or raised bumps which may be filled with pus . Your doctor may decide to stop your treatment with ENBREL®.

BRIGHT IDEAS FOR WELCOMING FRIENDS & FAMILY INTO YOUR HOME

COOL IT!

It's never too hot to party when ice cream is involved. So instead of your usual burger bash, throw an ice cream-tasting party for some yummy fun that beats the heat

These entertaining tips will make your party the coolest thing on the block:

» Stock a buffet table with tiny plastic spoons, small ice cream cups, cute paper napkins and several flavors of homemade ice cream. Better yet, serve up a variety of icy treats, such as gelato, sherbet and sorbet (see page 18 for recipes).

» Set up an area where guests can use their favorite flavors to fill a cone or make a sundae. Include pretty parfait or sundae dishes, waffle bowls and cones, sugar cones, sprinkles, syrups, nuts, crushed cookies, coconut, whipped cream or other fun toppings.

» Have plenty of beverages on hand. Stock a cooler, large buckets or a wading pool with ice and bottled water, iced tea, iced coffee or other thirst-quenchers.

» For added fun, make scorecards and let guests vote for their favorite flavors. After tallying the votes, put all the scorecards in a basket and draw a few for inexpensive door prizes (ice cream scoops, jars of sprinkles, gift certificate to an ice cream shop, etc.).

ADVAIR DISKUS 250/50 is approved for adults with COPD, including chronic bronchitis, emphysema, or both. You should only take 1 inhalation of ADVAIR twice a day. Higher doses will not provide additional benefits. People with COPD taking ADVAIR may have a higher chance of pneumonia. Call your doctor if you notice any of the following symptoms: change in amount or color of sputum, fever, chills, increased cough, or increased breathing problems. ADVAIR may increase your risk of osteoporosis and some eye problems (cataracts or glaucoma). You should have regular eye exams. Thrush in the mouth and throat may occur. Tell your doctor if you have a heart condition or high blood pressure before taking ADVAIR. Do not use ADVAIR with long-acting $beta_2$-agonists for any reason. ADVAIR does not replace fast-acting inhalers for sudden symptoms.

*It is not known how anti-inflammatories work in COPD. †Measured by a breathing test in people taking ADVAIR 250/50, compared with people taking either fluticasone propionate 250 mcg or salmeterol 50 mcg. Your results may vary. ‡Restrictions apply. See advairCOPD.com for eligibility rules.

Important Safety Information About ADVAIR DISKUS

This brief summary does not take the place of talking to your healthcare provider about your medical condition or treatment.

What is the most important information I should know about ADVAIR DISKUS?

- **In patients with asthma, long-acting beta$_2$-agonist (LABA) medicines, such as salmeterol (one of the medicines in ADVAIR DISKUS), may increase the chance of death from asthma problems.** In a large asthma study, more patients who used salmeterol died from asthma problems compared with patients who did not use salmeterol. It is not known whether fluticasone propionate, the other medicine in ADVAIR DISKUS, changes your chance of death from asthma problems seen with salmeterol. Talk with your healthcare provider about this risk and the benefits of treating your asthma with ADVAIR DISKUS.
- **ADVAIR DISKUS does not relieve sudden symptoms. Always have a fast-acting inhaler (short-acting beta$_2$-agonist medicine) with you to treat sudden symptoms. If you do not have a fast-acting inhaler, contact your healthcare provider to have one prescribed for you.**
- **Do not stop using ADVAIR DISKUS unless told to do so by your healthcare provider because your symptoms might get worse.**
- **ADVAIR DISKUS should be used only if your healthcare provider decides that another asthma-controller medicine alone does not control your asthma or that you need 2 asthma-controller medicines.**
- **Call your healthcare provider if breathing problems worsen over time while using ADVAIR DISKUS. You may need different treatment.**
- **Get emergency medical care if:**
  - **breathing problems worsen quickly, and**
  - **you use your fast-acting inhaler, but it does not relieve your breathing problems.**

What is ADVAIR DISKUS?

- **ADVAIR DISKUS contains 2 medicines:**
  - **fluticasone propionate (the same medicine found in FLOVENT®),** an inhaled corticosteroid medicine. Inhaled corticosteroids help to decrease inflammation in the lungs. Inflammation in the lungs can lead to asthma symptoms.
  - **salmeterol (the same medicine found in SEREVENT®),** a LABA. LABA medicines are used in patients with asthma or chronic obstructive pulmonary disease (COPD). LABA medicines help the muscles around the airways in your lungs stay relaxed to prevent symptoms, such as wheezing and shortness of breath. These symptoms can happen when the muscles around the airways tighten. This makes it hard to breathe. In severe cases, wheezing can stop your breathing and cause death if not treated right away.

Asthma

ADVAIR DISKUS is used long term, twice a day, to control symptoms of asthma and to prevent symptoms such as wheezing in adults and children ages 4 and older.

Chronic Obstructive Pulmonary Disease (COPD)

COPD is a chronic lung disease that includes chronic bronchitis, emphysema, or both. ADVAIR DISKUS 250/50 is used long term, twice a day, to help improve lung function for better breathing in adults with COPD. ADVAIR DISKUS 250/50 has been shown to decrease the number of flare-ups and worsening of COPD symptoms (exacerbations).

Who should not use ADVAIR DISKUS?

Do not use ADVAIR DISKUS:

- to treat sudden, severe symptoms of asthma or COPD
- if you have a severe allergy to milk proteins. Ask your doctor if you are not sure.

- **are allergic to any of the ingredients in ADVAIR DISKUS, any other medicines, or food products**
- **are exposed to chickenpox or measles**

Tell your healthcare provider about all the medicines you take, including prescription and nonprescription medicines, vitamins, and herbal supplements. ADVAIR DISKUS and certain other medicines may interact with each other. This may cause serious side effects. Especially, tell your healthcare provider if you take ritonavir. The anti-HIV medicines Norvir® (ritonavir capsules) Soft Gelatin, Norvir® (ritonavir oral solution), and Kaletra® (lopinavir/ritonavir) Tablets contain ritonavir.

- Do not use a spacer device with ADVAIR DISKUS.
- Do not breathe into ADVAIR DISKUS.
- **While you are using ADVAIR DISKUS twice a day, do not use other medicines that contain a LABA for any reason. Ask your healthcare provider or pharmacist if any of your other medicines are LABA medicines.**
- Do not change or stop any of your medicines used to control or treat your breathing problems. Your healthcare provider will adjust your medicines as needed.
- Make sure you always have a fast-acting inhaler with you. Use your fast-acting inhaler if you have breathing problems between doses of ADVAIR DISKUS.

Call your healthcare provider or get medical care right away if:

- your breathing problems worsen with ADVAIR DISKUS
- you need to use your fast-acting inhaler more often than usual
- your fast-acting inhaler does not work as well for you at relieving symptoms
- you need to use 4 or more inhalations of your fast-acting inhaler for 2 or more days in a row
- you use 1 whole canister of your fast-acting inhaler in 8 weeks' time
- your peak flow meter results decrease. Your healthcare provider will tell you the numbers that are right for you.
- you have asthma and your symptoms do not improve after using ADVAIR DISKUS regularly for 1 week

ROOM FOR ALL

With a big family who likes to help in the kitchen, functionality is key

NEW KITCHEN RUNNER-UP

A spacious kitchen is a luxury for many people, but for the Smithe family of Comfort, TX, it's a necessity. Ross and Julie Smithe are the proud parents of eight children—and they all like to help with meals.

The family also loves to entertain, so in addition to being roomy, this bright, open kitchen is also functional and beautiful. That combination earned them a $500 runner-up prize in our Dream Kitchen contest.

The Smithes built their home 2 years ago on 4 acres of rolling Texas hill country. "The kitchen's crown molding, 12-foot ceilings and farmhouse sink are reminiscent of the historic homes that grace this area," Julie says.

"We designed it not only to accommodate our large family, but also to host large gatherings comfortably. The kitchen is always the popular gathering spot, and the large island makes serving food a breeze."

Julie home-schools their children, and each one has a role in the kitchen, from cooking and cleanup to meal planning and preparing shopping lists. The family includes Sophia, Joshua, Christianna, Josiah, Jonathan, Abigail Rose, Justin and Jeremiah Honor, who range in age from 16 to 8 months. Dad Ross works as a territory manager for a floor-covering company and leads the family's music ministry.

Even with a family of 10, the Smithe kitchen runs like a well-oiled machine. With plenty of cabinet space, there's a place for everything. The built-in pantry stores small appliances, serving dishes and bread-making gear.

"While we love the historic feel of the home, we also wanted all of the modern conveniences," says Julie, "including a pot-filler over the stove, an eight-burner cooktop, double convection oven, two sinks and a side-by-side refrigerator and freezer."

Their kitchen seems to have it all. So what will they do with their $500 prize? "Buy groceries," Julie says with a grin.

ABOUT BLACKBERRIES

›› Blackberries are rich in fiber, vitamin C and folic acid.

›› Like raspberries, blackberries are what's known as an aggregate fruit, composed of many smaller fruits called drupes.

›› Select berries that are a little dull-looking, not shiny. Shiny berries are not ripe yet, and they won't ripen after they've been picked.

Don't remove strawberry caps before washing; the caps keep the water from breaking down the texture and flavor inside the berries.

Refrigerate blueberries to increase their shelf life. They'll keep fresher longer.

COOKING FOR GRANDMA

When company's coming, Ben gets cooking!

Ben Phipps, 10, heard that his grandma and her women's club were coming to visit. So the budding foodie wanted to make the ladies something sweet to eat.

He decided on his Mexican Ice Cream. Ben, who also loves making fried pickles and doughnuts, dreamed up the recipe after eating at a Mexican restaurant.

"The dessert was really good, so I thought I'd try to make it at home," says Ben. "It was a little scary making it for a lot of people, but I got comments like, 'This is good' and 'I like this.'" Not surprisingly, that boosted his confidence.

Grandma Karen Phipps says she and the 10 other ladies from the club were impressed by Ben and his know-how. "They all gathered around to see what he had made," she says. "He was very prepared and polite, and we all enjoyed eating his wonderful dessert."

Patient Information
SINGULAIR® (SING-u-lair) Tablets, Chewable Tablets, and Oral Granules
Generic name: montelukast (mon-te-LOO-kast) sodium

Read this information before you start taking SINGULAIR®. Also, read the leaflet you get each time you refill SINGULAIR, since there may be new information in the leaflet since the last time you saw it. This leaflet does not take the place of talking with your doctor about your medical condition and/or your treatment.

What is SINGULAIR*?

- SINGULAIR is a medicine called a leukotriene receptor antagonist. It works by blocking substances in the body called leukotrienes. Blocking leukotrienes improves asthma and allergic rhinitis. SINGULAIR is not a steroid. Studies have shown that SINGULAIR does not affect the growth rate of children. (See the end of this leaflet for more information about asthma and allergic rhinitis.)

SINGULAIR is prescribed for the treatment of asthma, the prevention of exercise-induced asthma, and allergic rhinitis:

1. **Asthma.**
   SINGULAIR should be used for the long-term management of asthma in adults and children ages 12 months and older.

   Do not take SINGULAIR for the immediate relief of an asthma attack. If you get an asthma attack, you should follow the instructions your doctor gave you for treating asthma attacks.
2. **Prevention of exercise-induced asthma.**
   SINGULAIR is used for the prevention of exercise-induced asthma in patients 15 years of age and older.
3. **Allergic Rhinitis.**
   SINGULAIR is used to help control the symptoms of allergic rhinitis (sneezing, stuffy nose, runny nose, itching of the nose). SINGULAIR is used to treat seasonal allergic rhinitis (outdoor allergies that happen part of the year) in adults and children ages 2 years and older, and perennial allergic rhinitis (indoor allergies that happen all year) in adults and children ages 6 months and older.

Who should not take SINGULAIR?

Do not take SINGULAIR if you are allergic to SINGULAIR or any of its ingredients.

The active ingredient in SINGULAIR is montelukast sodium.

See the end of this leaflet for a list of all the ingredients in SINGULAIR.

What should I tell my doctor before I start taking SINGULAIR?

Tell your doctor about:

- **Pregnancy:** If you are pregnant or plan to become pregnant, SINGULAIR may not be right for you.
- **Breast-feeding:** If you are breast-feeding, SINGULAIR may be passed in your milk to your baby. You should consult your doctor before taking SINGULAIR if you are breast-feeding or intend to breast-feed.
- **Medical Problems or Allergies:** Talk about any medical problems or allergies you have now or had in the past.
- **Other Medicines:** Tell your doctor about all the medicines you take, including prescription and non-prescription medicines, and herbal supplements. Some medicines may affect how SINGULAIR works, or SINGULAIR may affect how your other medicines work.

How should I take SINGULAIR?

For adults and children 12 months of age and older with asthma:

- Take SINGULAIR once a day in the evening.
- Take SINGULAIR every day for as long as your doctor prescribes it, even if you have no asthma symptoms.

- If your asthma symptoms get worse, or if you need to increase the use of your inhaled rescue medicine for asthma attacks, call your doctor right away.
- **Do not take SINGULAIR for the immediate relief of an asthma attack.** If you get an asthma attack, you should follow the instructions your doctor gave you for treating asthma attacks.
- Always have your inhaled rescue medicine for asthma attacks with you.
- Do not stop taking or lower the dose of your other asthma medicines unless your doctor tells you to.

For patients 15 years of age and older for the prevention of exercise-induced asthma:

- Do not take an additional dose of SINGULAIR within 24 hours of a previous dose.

For adults and children 2 years of age and older with seasonal allergic rhinitis, or for adults and children 6 months of age and older with perennial allergic rhinitis:

- Take SINGULAIR once a day, at about the same time each day.
- Take SINGULAIR every day for as long as your doctor prescribes it.
- You may take SINGULAIR with food or without food.

Lack of water is a common cause of daytime fatigue. It can also cause headaches. So drink several glasses each day!

SALAD ALERT

Salad on the menu? They are a wonderful way to get more veggies and nutrients into your diet, but be aware: In terms of saturated fat and calories, some restaurant salads belong more on the dessert cart.

Take the Caesar Salad with Chicken at Cheesecake Factory, for example. It weighs in at 1,510 calories. And Taco Bell's Chicken Ranch Taco Salad packs in 910 calories. Sodium levels run rampant, too. There are 2,700 mg of sodium in Chili's Quesadilla Explosion Salad.

To help you select salads that are lean and healthy, the American Institute of Cancer Research offers these tips:

- Skip salads with cheese, bacon and fried chicken; stick with a vegetable-only side salad.
- Order low-fat dressing on the side and use just 1 or 2 tablespoons. Oil and vinegar is a good choice.
- Choose main-dish salads with lean protein, such as turkey, fish, hard-boiled egg or garbanzo beans.

Do your homework, too. You can find nutritional data for your favorite menu items on the Web sites of most national restaurant and fast-food chains.

SUMMER SNACKIN'

School's out, and with time on their hands, your children might be reaching for a snack more often. Instead of cookies, candy, chips and cola, treat them to summer snacks that are actually good for them—and taste great, too! These healthy options come from *Taste of Home* Food Editor Pat Schmeling. Do her grandkids like 'em? "Absolutely!" she says.

- Put out bowls of cut-up fruit (cantaloupe, pineapple, berries, etc.), and let your kids make their own fruit kabobs.
- Pack small clusters of grapes into resealable plastic bags, and keep them in the refrigerator for a quick, cool snack.
- Make a smoothie with yogurt, a banana, additional fruit and a little milk, if needed.
- Toss together a trail mix with granola, raisins, nuts, sunflower seeds and mini chocolate chips.
- Spread peanut butter or honey on apple slices.
- Fill cut-up celery stalks with reduced-fat flavored cream cheese.

C'MON, GET HAPPY!

While research on how food affects mood is ongoing, scientists agree that healthy and happy *do* go hand in hand. Eating a healthy breakfast and occasional healthy snacks helps stabilize your blood sugar and avoid anxiety-producing "sugar drops."

Improve your mental health further by adding whole grains to keep you calm and protein to boost your alertness.

BONE UP

It's well known that calcium plays a big role in preventing osteoporosis. Low-fat milk, cheese, yogurt and other dairy products help keep bones strong. So can calcium-fortified foods, such as orange juice and breakfast bars.

But there are some foods you might not think of that can help you get your recommended daily dose of calcium (1,300 mg for ages 9-18; 1,000 mg for ages 19-50; and 1,200 mg for ages 51 and older). Here are a few to keep in mind:

- Dry-roasted nuts, 1 oz. (80 mg)
- Dried figs, 10 (269 mg)
- Salmon, 3 to 4 oz. (225 mg)
- Great northern beans, canned, 1 cup (139 mg)
- Oatmeal, apples and cinnamon flavor (104 mg)

Remember to spread calcium-rich foods over the entire day. Doing this allows your body to absorb it better. And add some weight-bearing exercises to your daily regime. Your bones will love it.

Cooking School winds up a winning season full of food, fun and freebies

Culinary Specialist Michael Barna stirs things up in the Northeast.

School is out for the summer, but the Taste of Home Cooking School staff is still talking about our successful spring season. The turnout was great and the crowds were fantastic.

Fans of our Cooking Schools know just how much fun they are, from the preshow expos with samples and drawings to the ever-popular goodie bags and, of course, the delicious recipes prepared on stage.

The Culinary Specialists keep things lively, telling stories of their own kitchen disasters and sharing helpful tips, such as storing chopped apples in 7UP.

There are always some giggles, and often, unexpected surprises. In Middleport, OH, for instance, Culinary Specialist Cheryl Cohen was escorted on stage by a frog. And you never know when a Culinary Specialist will run into the audience to hand out door prizes!

As one woman wrote to us: "What a fun evening! Good friends, good food samples and good recipes."

A FEATHER IN HER CAP

Hubby's restaurant favorite inspires her winning chicken recipe

AUDREY'S TIP
Don't forget the tortilla chips and salsa to serve on the side.

Chicken shows up often on **Audrey Kinne's** dinner table. "I use chicken breasts in casseroles, in Mexican and Italian dishes, and for frying. But grilled chicken is our favorite," says the Elkhart, IN homemaker.

So, when her husband, David, noticed that his favorite grilled entree at a local Mexican restaurant was no longer on the menu, he asked Audrey if she could duplicate it.

"I was close on my first try," she recalls, but continued to experiment until she perfected her Grilled Tomatillo Chicken. It was a hit with David. The recipe wowed *Taste of Home* judges, too, when Audrey entered it in our Chicken Champs contest. Tomatillos, jalapenos, lime juice and cilantro give it a deliciously zippy, south-of-the-border flair.

"I discovered cilantro while in Costa Rica during college. Now, I use it often and add it to almost all my Mexican dishes," Audrey says. "This recipe is best with grilled chicken breast, but you can use oven- or skillet-fried chicken instead."

David, who's a carpet installer, is the grilling expert in the family, so he usually prepares the chicken for this dish. Their son, Gabriel, 3-1/2, likes to help in the kitchen, too.

Audrey works part-time from home as a bookkeeper, which allows her to practice her cooking skills. "I was raised a Mennonite and have Amish ancestors, so my cooking is somewhat influenced by my background.

"David and I have been married for 8 years, and he says my cooking has improved tremendously—especially in the past 2 years of receiving *Taste of Home*. Winning this contest proves I'm making progress!"

CELEBRATING THE PEOPLE AROUND THE *TASTE OF HOME* TABLE

THE JOY OF JELLY MAKING

Summer Hays
BANNER ELK, NC

I am not a domestic queen. I work full time, have a husband and a toddler, and I'm thrilled if I can get mac and cheese on the table by 6:05 p.m. So the thought of making jelly, jam or anything canned made me laugh out loud.

I usually bought homemade jelly at local fund-raisers and fairs, admiring the handiwork of the sweet church ladies who had prepared them.

Then, my family was invited to pick raspberries, and we came home with overflowing containers.

"What are we going to do with all these berries?" someone asked.

"Jelly!" someone else shouted in reply.

No, I thought, only people with time on their hands do that—not working girls. But what else was I going to do? Bake desserts? Too fattening. Freeze them? No room in the freezer. Give them away? Are you kidding? I was going to make jelly after all!

A friend heard my cry for help, and the next night, the training began. I stirred the boiling stockpot constantly while my mentor measured out the sugar. The fate of my jelly would depend on perfect measuring, cook time and, of course, the seal. Nervously, I ladled the hot, sticky goo into my prepared jars. I delicately placed them on a soft, cool bed to rest and waited. After what seemed to be hours, one after another sealed with a resounding *pop*. What joy!

I guess the true satisfaction of jelly making is not the delicious flavor but the moment when the lid seals. In our household, we treat it as if it's a touchdown. When my toddler and I hear one seal, we shout, "Woo-hoo!"

Now, I am one of those sweet church ladies who painstakingly prepares homemade jelly, and I'm proud of it. Still, every time that I pull out my stockpot, my husband remarks, "What on Earth are we going to do with all that jelly?"

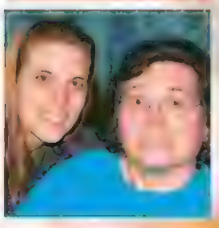
mom's best



paula montijo & nancy kreiser

> "We have a standing invitation for Sunday dinner, and my mother is never satisfied with a casual spread."
>
> —PAULA MONTIJO // LEBANON, PA

By the age of 10, my mom, **Nancy Kreiser**, was taking on much of the family cooking so her parents could work the farm. She even helped her mother can and freeze the harvest from their large garden.

Even after Mom married my dad, Paul, they helped on the farm and kept a garden there. I remember our freezer always stocked with beef, corn and strawberries, and the basement shelves lined with jars of canned vegetables and fruit.

Mom loved cooking for our family of six. My dad is a postmaster in nearby Hamburg; my older brother Craig, my sister Patty and I live nearby, and my younger sister, Rebecca, is still at home and is a big help to Mom.

When we were kids, my mother had a delicious dinner on the table every night, and we enjoyed eating together as a family. The meal I've shared here is one of my favorites—tender, mouthwatering roast with gravy; garden-fresh corn made even sweeter with honey; a tangy relish; and Mom's delectable cake roll. I make that dessert often for company or to take to church dinners.

We have a standing invitation for Sunday dinner, and my mother is never satisfied with a casual spread. Although she can no longer do the cooking, due to multiple sclerosis, she supervises Dad and us girls from her wheelchair in the kitchen.

All of us pitch in on the canning, too. Mom sits at the table and gives instructions. My dad and brother pick fruit, so Dad can freeze it or make jelly to share, which delights the 10 grandkids.

Mom still likes poring over new recipes and planning menus. It's not unusual for one of us to call and pick her brain about a recipe or a dish she has made.

Over the years, I've really enjoyed learning to cook from her and make her special recipes for my husband and our four children. Maybe her recipes will become your favorites, too.

- 1 cup sugar
- 1/3 cup water
- 1 tsp. vanilla extract
- 3/4 cup all-purpose flour

FILLING:
- 1/2 cup all-purpose flour
- 1 cup milk

- 1/2 cup shortening
- 1 cup sugar
- 1 tsp. vanilla extract
- 1/4 tsp. salt

BERRIES:
- 3 cups sliced fresh strawberries
- 1/4 cup sugar

Line a greased 15-in. x 10-in. x 1-in. baking pan with waxed paper and grease the paper; set aside.

In a large bowl, beat eggs on high speed for 3 minutes. Gradually add sugar, beating until mixture becomes thick and lemon-colored. Beat in water and vanilla. Combine the flour, baking powder and salt; fold into egg mixture. Spread batter into prepared pan.

Bake at 375° for 12-15 minutes or until cake springs back when lightly touched. Cool for 5 minutes. Invert onto a kitchen towel dusted with confectioners' sugar. Gently peel off waxed paper. Roll up cake in the towel jelly-roll style, starting with a short side. Cool completely on a wire rack.

In a large bowl, cream the butter, shortening and sugar until light and fluffy. Beat in vanilla and salt. Gradually beat in milk mixture; beat for 5 minutes or until filling is light and fluffy.

Unroll cake; spread filling over cake to within 1/2 in. of edges. Roll up again. Place seam side down on a serving platter. Sprinkle with confectioners' sugar. Combine strawberries and sugar; refrigerate cake and berries for 1 hour before serving.

FARM LIFE BRINGS FRESH FLAVORS TO THIS FIELD EDITOR'S COOKING

PERSONAL

I live in Beverly, WV, with my husband, Steve, and our daughters, Hannah, 12, and Heidi, 8. Steve is a machinist and welder; he also runs our 42-acre farm. I am a licensed agent and customer service representative for an insurance company.

PASSIONS

I'm the leader for our daughters' Girl Scout troop and a 4-H Club volunteer. I'm also involved in several civic organizations and sing in the choir and play handbells at church. I love cooking for my family; it's one of life's simplest pleasures.

WHAT DO YOU RAISE ON YOUR FARM?

We have it all! We raise our own beef and chickens and tend a large garden. Steve has a green thumb, so we eat fresh produce all summer and fall, then we preserve the rest. We grow several kinds of vegetables, including squash, spinach, tomatoes, peas, corn and potatoes. We also have grapes, wild blackberries and a small apple orchard. Plus, Steve is an avid hunter.

Summer is my favorite time of year and a wonderful opportunity to prepare our favorite dishes fresh from the vine. It goes by quickly, yet I know when the crisp fall air says winter is coming, we'll be prepared for a long, hard winter in the mountains because of the bounty of nature's goodness in the pantry and freezer.

DESCRIBE YOUR LIFESTYLE

We relish the old-fashioned ways of growing, preserving and cooking our own food from scratch, and we're passing that tradition on to our daughters. Having the children help with meal preparation instills responsibility, healthy eating habits and family togetherness. No matter how busy we are, sit-down dinners are a must. They give us time to reflect on our days and give thanks for the blessings in our lives.

MARINATED VEGGIE // BEEF KABOBS

PREP: 35 MIN. + MARINATING GRILL: 10 MIN.
YIELD: 8 KABOBS

- 1 cup dry red wine
- 1/2 cup olive oil
- 4 tsp. Worcestershire sauce
- 4 tsp. Italian seasoning
- 1 Tbsp. garlic powder
- 2 tsp. seasoned salt
- 2 tsp. pepper
- 1 tsp. dried parsley flakes
- 1 beef top sirloin steak (1-1/2 pounds), cut into 1-inch cubes
- 8 cherry tomatoes
- 1 large red onion
- 1 medium green pepper
- 1 yellow summer squash
- 1 medium zucchini

In a small bowl, combine first eight ingredients. Pour half the marinade into a large resealable plastic bag. Add the beef; seal bag and turn to coat.

Pour remaining marinade into another large resealable plastic bag; add tomatoes. Cut remaining vegetables into 1-in. pieces; add to bag. Seal bag and turn to coat. Refrigerate beef and vegetables for at least 2 hours.

Coat grill rack with cooking spray before starting the grill. Drain and discard marinade from beef. Drain vegetables, reserving the marinade for basting. On eight metal or soaked wooden skewers, alternately thread beef and vegetables.

Grill, covered, over medium heat for 10-15 minutes or until meat reaches desired doneness, basting frequently with reserved marinade and turning occasionally.

GRILLED PORK CHOPS //

PREP: 10 MIN. + MARINATING GRILL: 10 MIN.
YIELD: 4 SERVINGS

- 1/2 cup packed brown sugar
- 1/2 cup soy sauce
- 2 garlic cloves, minced
- 1/4 tsp. pepper
- 4 bone-in pork loin chops (1 inch thick and 8 ounces each)

In a small bowl, combine the brown sugar, soy sauce, garlic and pepper. Pour marinade into a large resealable plastic bag. Add pork chops; seal bag and turn to coat. Refrigerate for 8 hours or overnight.

If grilling the chops, coat grill rack with cooking spray before starting the grill. Drain and discard marinade. Grill chops, covered, over medium heat or broil 4 in. from the heat for 4-5 minutes on each side or until a meat thermometer reads 160°.

BLACKBERRY COBBLER //

PREP: 25 MIN. BAKE: 30 MIN.
YIELD: 9 SERVINGS

- 3 cups fresh or frozen blackberries
- 1 cup sugar
- 1/4 tsp. ground cinnamon
- 3 Tbsp. cornstarch
- 1 cup cold water
- 1 Tbsp. butter

BISCUIT TOPPING:
- 1-1/2 cups all-purpose flour
- 1 Tbsp. sugar
- 1-1/2 tsp. baking powder
- 1/2 tsp. salt
- 1/2 cup cold butter
- 1/2 cup 2% milk
- Whipped topping or vanilla ice cream, optional

In a large saucepan, combine the blackberries, sugar and cinnamon. Cook and stir until mixture comes to a boil. Combine the cornstarch and water until smooth; stir into fruit mixture. Bring to a boil; cook and stir for 2 minutes or until thickened. Pour into a greased 8-in. square baking dish. Dot with butter.

For topping, in a small bowl, combine the flour, sugar, baking powder and salt. Cut in butter until mixture resembles coarse crumbs. Stir in milk just until moistened. Drop by tablespoonfuls onto hot berry mixture.

Bake, uncovered, at 350° for 30-35 minutes or until filling is bubbly and topping is golden brown. Serve warm with whipped topping or ice cream.

- 1/4 tsp. grated lemon peel

Place the beans in a steamer basket; place in a large saucepan over 1 in. of water. Bring to a boil; cover and steam for 8-10 minutes or until crisp-tender.

Meanwhile, in a small saucepan, heat the remaining ingredients until butter is melted. Transfer beans to a serving bowl; drizzle with butter mixture and toss to coat.

COOKS WHO CARE

HIGH-TECH BAKE SALE

Her "Pie-O-U" campaign means treats for donors, homes for soldiers

MORE!

Join the community, read inspiring stories and find great recipes at cookswhocare.com

Not all bake sales are held in a school gym or church basement. **Kelly Heft** of Somersville, MA, hosts her bake sale over the Internet. She provides a "Pie-O-U" to those who donate money to Homes for Our Troops. Then, Kelly makes pies, cakes, cookies or her Cranberry-Port Fudge Brownies, and ships them to the donors or delivers them in person. She typically asks for donations of $10 for a dozen cupcakes.

Homes for Our Troops is a nonprofit organization that accepts donations of time and money to build handicap-accessible homes for soldiers returning from war with injuries that limit their mobility.

"My mother developed multiple sclerosis when my sister and I were kids, and I remember how challenging it was for our family to modify our home to meet her needs," says Kelly. "Our servicemen and women and their families have given so much to our country. They deserve to live in an attractive, well-made home that meets their needs."

Known as the baker in her circle of friends, Kelly learned to bake from her mom.

"Now that my mother has passed away, baking makes me feel connected to her," she says. "Using these skills to raise money for a worthy cause is something she used to do, especially for the PTA at our school. I think she would be happy and proud that I am carrying on this tradition."

cranberry-port fudge brownies

Kelly Heft // SOMERSVILLE, MA

PREP: 25 MIN.
BAKE: 30 MIN. + COOLING
YIELD: 16 SERVINGS

4 ounces unsweetened chocolate, chopped
1/2 cup butter, cubed
1-1/2 cups sugar
1/2 teaspoon vanilla extract

Stir in flour and salt just until blended. In a small saucepan, combine cranberries and wine. Bring to a boil over medium heat; cook until liquid is reduced to a thin syrupy consistency (about 3 minutes). Stir into the batter.

Transfer to a greased 9-in. square baking pan. Bake at 325° for 30-35 minutes or until a toothpick inserted near the center comes out clean (do not overbake). Cool on a wire rack.
